

Cancer Society Gisborne

Sunscreen Pole Loan – Application Form

Every year, thousands of New Zealanders are exposed to harmful UV radiation while attending community events. As an outdoor event organiser, you can help protect participants, staff, and volunteers by adopting simple sun protection measures.

The Cancer Society receives no direct government funding and relies on the generosity of the communities in which it works. This support allows us to offer our sunscreen pole loan system for community events at no cost; however, koha/donations are welcome. To qualify, events must support the Cancer Society's health promotion goals and meet the criteria below.
